Objective

Seeking dynamic Finance leadership role in the San Francisco Bay Area.

Targeting startup environment or fast paced, high-growth industries and businesses.

Professional Experience

ExxonMobil

2008 - Present

Supervisor, Capital Expenditures

Fort Worth, TX

2019 - Present

Oversee accounting activities for capital expenditures by ExxonMobil's industry leading US oil and gas operations. Manage diverse team responsible for ERP system integrity, expenditure authorization, and financial reporting. Maintain a sound controls environment while supporting data driven investment analysis and decision making.

- \$10-15B in capital expenditures
- ERP system migration project (SAP)
- US GAAP and SOX key controls
- Accounting policy, capital vs expense
- Financial reporting and consolidation
- Management and leadership
- Staffing and planning
- Process design and system integration

Business Unit Analyst

Midland, TX

2015 - 2019

Chief financial advisor to Business Unit Vice President overseeing ExxonMobil's rapid expansion in West Texas. Drove financial planning to ensure ExxonMobil led West Texas oil production resurgence. Responsible for all aspects of accounting and finance including profitability analysis, financial modeling, planning and budgeting, acquisition integration, and full P&L stewardship. During this period US surpassed Saudi Arabia in total oil production, and unseated OPEC as swing producer in global energy markets.

- Revenues \$2B, opex \$1B, capex \$5B
- Financial Planning and Analysis
- Data Analytics, Spotfire, SQL
- Contract endorsement & negotiation
- Board of Directors presentation
- Dynamic, rapid growth environment
- \$6.5B acquisition, Bass Companies
- Full P&L and Balance Sheet analysis

Strategic Planning Analyst **Houston, TX** **2013 - 2015**

Executed annual budget process for capital-intensive global operations. Designed and implemented dashboards for Vice President, providing detailed, intuitive, graphical representation of daily drill ship operations. Performed competitor analysis and assessed supplier liquidity for high-value contracts in a period of market turmoil.

- Competitor analysis, benchmarking
- Procurement, supply chain
- Contract strategy (\$500M contracts)
- Data Analytics, Tableau, SQL
- Capital budgeting, \$8B
- Drove executive stakeholder meetings

Internal Auditor **Houston, TX** **2011 - 2013**

Led audits spanning broad array of organizations within ExxonMobil's global portfolio of business lines and corporate functions. Audit experience includes both internal and external audits. Selected to lead cross-continent audit of key supplier (Norwegian company in Singapore with staff in Qatar and US). Audit covered contracts valued at ~\$500M+ for offshore, state-of-the art drill ships deployed around the globe.

- Audit, process and controls
- High-value, long-term contracts
- Supplier relations
- Treasury, Finance, and Accounting

Business Analyst **Beaumont, TX** **2008 - 2011**

Leveraged engineering background to develop and drive annual plant maintenance budget. Process resulted in \$10M annual savings and was recognized as global best practice. Later implemented at all US chemical manufacturing sites covering more than ~\$1B in annual maintenance expenditures.

- Planning and budgeting
- Process workflow optimization
- Manufacturing and Operations
- Cross-functional influence
